# ATTENTION!

## Street Sign Regulations Are Changing... Make Sure You Are Compliant With New Federal Laws.

According to the Manual on Uniform Traffic Control Devices (MUTCD) street sign regulations are set to take effect soon. FORSITE can provide you with (MUTCD) compliant signs for your community or municipality.

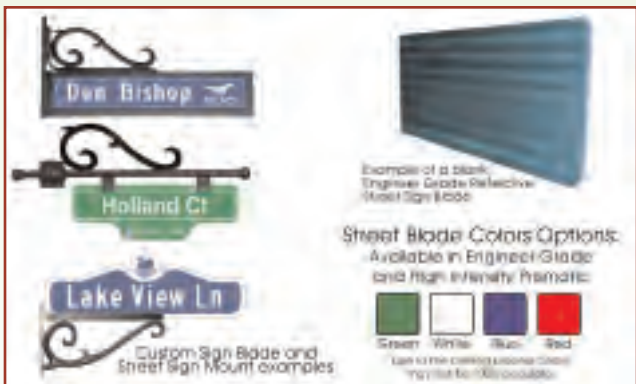

### Letter Height:

- Lettering must be upper and lower case, ex: "Main St"
- Lettering on street sign names with a speed limit over 25 MPH should have at least 6" tall upper case and 4-1/2" tall lower case letters (minimum letter size height increases as speed limit rises, check with local ordinance)

### Reflectivity:

- Signs need to have a reflective background sheeting (Engineer Grade Prismatic or High Intensity Prismatic Sheeting)
- Vinyl lettering needs to be reflective

Forsite offers MUTCD compliant street signs as well as a large selection of Decorative Street Sign Frames and Custom Street Sign Blades.

P.O. Box 51402 • Jacksonville Beach, FL 32240  
(904) 652-3917 • [www.forsite.us](http://www.forsite.us)
